Instructions for Use

**ZECUITY®** (zeh-CUE-eh-tee)
(sumatriptan iontophoretic transdermal system)

For topical use

Read these Patient Instructions for Use before using your ZECUITY and each time you get a refill. There may be new information. This leaflet does not take the place of talking with your healthcare provider about your medical condition or your treatment.

Your ZECUITY Transdermal System (TDS): See Figure A

**Preparation**

ZECUITY is a single-use Transdermal System (TDS) or patch.
- Remove ZECUITY by folding and tearing from the notch at the corner of the clear pouch. See Figure B
- ZECUITY TDS should not be cut.
- Do not use ZECUITY TDS if the clear pouch is torn or damaged.

**Step 1 – Pull Tabs**

To apply the ZECUITY TDS you must pull the 2 foil tabs. These tabs are marked on the package as Step 1a and Step 1b. See Figure D
- Place ZECUITY on a flat surface with the foil packets facing up.
- While holding the package, pull both foil tabs out, 1 at a time, and throw the foil tabs away in the trash.

**Note:** You must apply and activate ZECUITY within 15 minutes of completing Step 1.

**Step 2 – Rub Foil Packets**

ZECUITY has 2 foil packets that each contain a white medication pad that must be properly attached to the ZECUITY TDS before use.
- To transfer and attach the medication pads to the ZECUITY TDS use 2 fingers and firmly press and rub each foil packet, tracing the green arrow 3 times around. See Figure E

**Step 3 – Unfold and Lift Open**

Unfold the orange flap, marked as Step 3 on the bottom of the packet and lift open the package. See Figure F

**Step 4 - Peel Pads and Check**

- Slowly peel the first part of the ZECUITY TDS back from the silver liner. If the medication pad is not attached, lay the ZECUITY TDS down on a hard surface and repeat Steps 2 and 3. See Figure G

After checking to make sure that both white medication pads are securely attached, peel the ZECUITY TDS completely away from the silver liner. See Figure H
- The ZECUITY TDS will not work properly if both medication pads are not attached.
- There may be gel left in the reservoirs after the ZECUITY TDS is peeled back from the silver liner.

**Choose an application site:** See Figure C

Choose an application site on your upper arm or thigh. Do not apply ZECUITY to any other body parts. Choose an area of skin that is dry, clean and relatively hair free.
- Do not apply ZECUITY over skin that is red or irritated. Skin should be free of redness and irritation for at least 3 days prior to application.
- Do not apply ZECUITY over scars, tattoos, scratches, burns, abrasions, or broken skin.
Step 5 – Apply and Activate
Apply ZECUITY to your upper arm or thigh and activate it by pressing the button to turn it on. The button will blink and then turn solid red as it releases the medicine. See Figure I

- If the light does not turn solid red or goes off within the first 15 minutes of application this means no medicine is being delivered. The TDS should be gently removed and thrown away. See “How to safely remove and throw away ZECUITY TDS” for instructions. You can immediately apply a new TDS to a different application site.
- Wear the TDS for 4 hours or until the red light goes off.
- If the red light turns off before 4 hours, the TDS has stopped delivering your medicine and should be gently removed and thrown away. See “How to safely remove and throw away ZECUITY TDS” for instructions. If you still have migraine pain, another ZECUITY TDS can be applied to a different application site.

Figure I

Important Information about using ZECUITY TDS:
- You may feel slight tingling or a mild burning sensation within 30 seconds of activating the ZECUITY TDS after pressing the button.
- If ZECUITY begins to peel off, the ZECUITY TDS may be taped down with medical tape.
- You must keep ZECUITY dry. Do not bathe, shower, or swim while wearing ZECUITY.
- Do not have a Magnetic Resonance Imaging (MRI) while wearing ZECUITY.
- Remove ZECUITY if you have a painful burning sensation during use.

How to safely remove and throw away ZECUITY TDS:
- Slowly remove ZECUITY to minimize skin irritation. Gently clean the area with mild soap and water to remove any medicine that might be left on the skin.
- ZECUITY TDS contains lithium-manganese dioxide batteries. Talk to your pharmacist or healthcare provider about how to follow state and local regulations when throwing away ZECUITY.
- After use, fold your used ZECUITY TDS so the adhesive side sticks to itself and safely throw it away.
- Keep ZECUITY out of the reach of children and pets.

How should I store ZECUITY?
- Store ZECUITY TDS at room temperature between 68°F to 77°F (20°C to 25°C).
- Do not store ZECUITY in the refrigerator or freezer.

This Instructions for Use has been approved by the U.S. Food and Drug Administration.
